EDUCATION

University of Warsaw (MIMUW)

Warsaw, Poland

Bachelor of Science in Computer Science

Oct. 2025 – Present

- Fast-tracked to take the 3rd-year **Functional Programming** course as a freshman.
- Member of the student council business-team; staying in contact with companies and organizing events.
- **Key Coursework:** Discrete Mathematics, Calculus, Linear Algebra, Algorithms & Data Structures.

King Władysław IV High School

Warsaw, Poland

High School Diploma (Matura), Focus: Mathematics, CS, Physics

Sep. 2021 – Apr. 2025

- Active participant in algorithmic and mathematical contests (OI, OM).
- Rowing Team member; represented the school in multiple competitions.

HONORS & AWARDS

AMPPZ 2023 (Polish Collegiate Programming Contest) | *Finalist*

Nov. 2023

- Had a pleasure to compete directly against university teams while still in high school.

Polish Olympiad in Informatics (OI) | *Semi-Finalist*

2024, 2025

- Qualified to the 2nd Stage in both the 31st and 32nd editions. Solved complex algorithmic problems (graphs, dynamic programming) under strict time constraints.

STEM PW V Edition | *Distinguished Finalist*

Apr. 2025

- Awarded title of Distinguished Finalist in a multidisciplinary competition organized by Warsaw University of Technology.

PROJECTS & EXPERIENCE

Mathematics & CS Club Organizer

Sep. 2023 – Present

Volunteer / Olympiad Instructor

Warsaw, Poland

- I organize and lead **preparation circles** for the Math and Informatics **Olympiads** in our High school. I try to not only explain complex algorithmic concepts, but to mentor students and get to know and understand them personally, adopting an individual approach to develop their problem-solving intuition.

Machine Learning Specialization (Course by Andrew Ng) | *Python, NumPy*

Sep. 2025

- Developed basic neural network models to understand underlying mathematics.
- Applied unsupervised learning techniques to datasets.

Garbage collection with trial deletion | *C*

Apr. 2026

- Developed a library implementing recursive stacks and basic operations on them.
- Focus on code readability and efficiency.

Combinator Reducer | *Haskell*

Mar. 2026 - Present

- Built an interpreter of simplified Haskell syntax and combinator reducer.
- Focus on code security and purity.

SKILLS

Languages: C++, Java, Haskell, Python

Technologies: Linux/Bash, Git, NumPy, PyTorch

Concepts: Data Structures, Algorithms, Functional Programming, OOP, Neural Networks

Languages (Human): English (Advanced), Russian (Native), Polish (Native)

INTERESTS & ABOUT ME

I **seek challenges** and I'm almost constantly out of my comfort zone. I want to grow. To build. To create value.

I love people. I'm quite **aware** of my surroundings, so usually I'm able to notice their needs and try to help; or at least make them smile:)

In the free time I like to read about **Psychology**, **Biology** and **Marketing** and train Calisthenics or Bouldering.
